What's included in the Professional Services?

- *Facial Analysis of client - all clients must take a series of photos uploaded and sent by you of them. All clients will be safe with privacy and are required to sign a disclosure of a 2nd party review of their case.*
- *Full Analysis of case (homeopathic) - Miasm specific (holding to homeopathic principles) - options of remedies that the specific practitioner can decide and have client administer.*
- *Full disclosure on dosing and options for the client and utilized through the discretion of the practitioner.*

Please note having your clients know that they can have a full review from a homeopath when they see you, it is a nice option. You can have them help with the cost of your overall service to them. HSA and FHSA accounts do cover the cost of homeopathy. However, if your client pays through insurance, etc. you can adjust your upfront cost to them to help cover the professional service option costs.
