

Acute Remedy Ordering

Please note why we suggest a list of acute/injury remedies...

Note: 8 oz water bottles are essential for dilution of remedy

You will receive all the instructions on how to take and make your acute and/or acute injury remedies:

We ask that you **order six remedies** for check out. Reason, in acutes and injuries there can be more than one that is needed (especially in acute injuries). In general, acute illness, you may find that the 3rd or even 6th option for a remedy is the one that works. So, we want you to have them on hand to work effectively. Homeopathic remedies are *FDA approved*.

Acute injuries typically show marked improvement within 24-72 hours (all depending on what it is). Or broken bones, healing from a replacement, or any surgery will help the convalescent individual and/or pet be much shorter in duration and heal with much less pain.

Acute illness can respond much quicker, depending on how soon we start. If it is lingering, it can take a few hours to 24 hours to see a marked improvement. If we are dealing with things like earache, fever, stomach flu, etc. marked improvement with the correct miasmatic remedy can begin within 20 min - 2 hours...

All remedies can be taken alongside OTC drugs and prescription drugs...
they DO NOT INTERFER!
